

ASPAK

Full stack Developer

+ 91-8310008662 | aspakiqbal@gmail.com | github.com/aspak0 | linkedin.com/in/aspak | Portfolio | Udupi, Karnataka |

PROFESSIONAL SUMMARY

Aspiring Full Stack Web Developer with 3 years of experience and a proven track record of delivering high-quality, scalable web applications. With comprehensive expertise in the MERN stack and a strong foundation in web development technologies such as HTML, CSS, JavaScript, and React, I aim to leverage my skills and experience in a challenging international environment. My goal is to contribute to innovative projects, collaborate with diverse teams, and continuously enhance my technical abilities while delivering impactful solutions. Eager to contribute skills and technical expertise in furthering groundbreaking projects and commitment to excellence in a forward-thinking international organization.

EXPERIENCE

Full stack Developer

Freelancer

📅 2021 - present 📍 Udupi, Karnataka

Worked independently to deliver customized web solutions for diverse client needs, combining creativity and technical expertise.

- Collaborated with Computer Science and Diploma students to design and build multiple full-stack web applications.
- Created dynamic user interfaces and implemented responsive front-end solutions using HTML, CSS, JavaScript, and React.
- Developed server-side applications and APIs using Node.js and Express, integrating with MongoDB for data management.
- Gained practical experience in full-stack development through freelance projects, enhancing both technical skills and project management abilities.

Back-End Developer

Course Compass (Formerly App2Build Learning)

📅 9/2024 📍 Mumbai, India

Contributed to the backend architecture of learning platforms by creating secure, scalable systems and enhancing functionality.

- Designed efficient databases and built secure APIs using MongoDB, Express, and Node.js.
- Integrated third-party services to enhance application functionality.
- Worked closely with cross-functional teams to meet project deadlines, ensuring cohesive integration between front-end and back-end systems.
- Proficient in implementing user authentication and business logic for secure and reliable systems.
- Managed time efficiently to prioritize tasks, optimize backend performance, and create scalable systems that ensure seamless user experiences.

Full stack web Developer

S P Tech Pvt Ltd

📅 2023 - 2024 📍 Bangalore, India

Played a key role in developing and deploying web applications, focusing on performance and scalability using the MERN stack.

- Developed full-stack applications, leveraging expertise in JavaScript, React, Node.js, Express.js, and MongoDB to deliver robust and scalable solutions.
- Leveraged MERN stack technologies to build and deploy web applications.
- Showcased expertise in both front-end and back-end development.

EDUCATION

Diploma

Indian Technical Education Society, Mumbai

📅 04/2016 📍 Karkala, Udupi Karnataka | GPA: First Class

Pre-University (PU) Education and High School (10th Grade)

Government P.U. College, Bajagoli

📅 08/2015 📍 Bajagoli, Udupi Karnataka

PROJECTS

Learning Management System (LMS)

A MERN stack backend project developed during my tenure at **Course Compass**.

- As a Back-End Developer designed efficient databases, built secure APIs, and integrated third-party services using **MongoDB**, **Express**, and **Node.js**
- Built RESTful APIs to enable efficient communication between the front-end and back-end
- Implemented **MongoDB** for efficient data storage and management.

Book Shelf (MERN)

🔗 https://github.com/aspak0/Book-Shelf_MERN-app

A MERN stack application developed during the **Entri** Full Stack Development.

- Designed and implemented features for adding, updating, and deleting books.
- Created a responsive user interface using **React**, ensuring a seamless user experience.

Code Pen Clone

🔗 <https://github.com/aspak0/React-projects/tree/main/codepen-clone>

Bit Wallet

🔗 https://github.com/aspak0/Bit_wallet.github.io?tab=readme-ov-file

Shopping Cart

🔗 <https://github.com/aspak0/React-projects/tree/main/shoppingcart>

Tic-Tac-Toe

🔗 <https://github.com/aspak0/React-projects/tree/main/tictacapp>

Crypto price Tracker

SKILLS

Client-Side

HTML | CSS | SASS | JAVASCRIPT | REACT |

Server-side

NODE.JS | EXPRESS.JS | MongoDB |

Other

FIREBASE | GIT | GITHUB | DOCKER | ETHICAL-HACKING | WORD | POWER POINT | LINUX | MAC | WINDOWS

STRENGTH

- Proficient in both Front-End and Back-End development.
- Strong problem-solving skills with the ability to debug and optimize code for better performance.
- Collaborative team player with a proven track record of delivering projects on time and exceeding expectations.
- Creating user-friendly web interfaces for optimal user experience.

CERTIFICATION

- Entri Elevate Full-Stack Development (MERN) Technology.
- Relevel by Unacademy Front-End Development.
- FreeCodeCamp Responsive Web Design.
- Career Ninja Advance JavaScript.
- Microsoft | web development.
- Eduonix Certified Web Developer.
- Great Learning / Introduction to Ethical hacking.
